PROJECTS

Compress and Decompress Files GUI
GitHub Link

- Made a GUI using Java Swing Framework.
- Made a GUI to compress any file into ZIP file and decode the encoded zip file to their original form (Compressed into zip file).
- After Compression or Decompression of file a popup is displayed to show the size pf the text file converted to the size of zip file.

Hang Mans Game
OnlineGDB Link

- Worked on making a Letter Guessing game of word.
- Made the game using the Array, String and Character concepts.
- On the Starting of the game player will have 3 lives that will be shown as 000, for every wrong guess one live will be deducted from the total lives and it will be shown as X00, and for each correct guess the word will be formulated. If not exists, player can not enter same letter twice it will deduct a life.
